## The Community Recreation Year Book

The Year Book of the P. R. A. A. is a report of the public recreation facilities, leadership, expenditures, and programs of American municipalities. It is primarily a statement of community recreation activities conducted under leadership and of facilities used primarily for active recreation. In order to be included in the Year Book, a city must report one or more playgrounds or indoor recreation centers conducted under leadership or a major recreation facility such as a golf course, swimming pool or bathing beach, the operation of which requires regular supervision or leadership.

The Year Book contains reports of such recreation facilities and activities provided by many municipal and county park authorities, but it does not include all types of park service. Recreation programs provided by industrial concerns and other private agencies for the benefit of the entire community and which are not restricted to special groups are also reported. Similarly, reports of many school playgrounds, recreation centers, and other recreation service provided by school authorities are published, but statements concerning school physical education programs are not included in the Year Book.

Because of the limited definition of recreation used in compiling the Year Book, the municipal expenditures reported are much less than the amounts reported by the United States Department of Commerce as spent by cities for recreation. In the government reports all types of municipal recreation are included: playgrounds, parks and trees, open spaces, museums, art galleries, swimming and bathing places, athletics, music, entertainments, and celebrations. The latest report, which covered the 1927 expenditures of 250 cities having a population of 30,000 or over, indicated that these cities paid $63,863,863 for outlays for recreation and $60,364,361 for operation and maintenance, making a total expenditure for recreation in 1927 of $124,228,224. In contrast with this figure, the P. R. A. A. Year Book for 1927, containing reports from 815 communities, showed a total expenditure of only $32,191,763.32 in 658 of these cities for the types of recreation included in the Year Book.

# Community Recreation Leadership in 945 Cities

Nineteen twenty-nine marked another year of progress in the community recreation movement, according to the Year Book reports of recreation facilities and programs in 945 communities The largest number of cities previously included in a Year Book was in 1928 when the recreation service in 872 communities was reported. It is believed that with three exceptions† the present issue contains reports from every city in the United States having a population of more than 50,000. A part of the gain of 73 cities is due to the county park systems reporting, some of them for the first time, a number of which conducted recreation facilities or programs under leadership in several communities. Reports were received from 8 additional cities too late for publication.* In spite of the gain in total number of cities reporting 124 which appeared in the 1928 Year Book are not included in this volume, due in most cases to their failure to submit a report for 1929.

The extent of the service rendered by outdoor playgrounds is suggested by the yearly or seasonal attendance figures secured for the year 1929. The total number of participants reported for 5,330 playgrounds in 565 cities is 136,043,123 and the number of spectators reported for 2,288 playgrounds is 23,249,203. Estimating that the average seasonal attendance is the same for the playgrounds not reporting as for the ones for which data was submitted, the total number of persons served on the 7,681 playgrounds conducted under leadership last year was 274,099,562. This figure does not include the millions of people using the athletic fields, golf courses, bathing beaches, indoor centers and other areas which were provided in increasing numbers in 1929. A total of 1,589 facilities and play areas of which 694 were outdoor playgrounds were reported open last year for the first time.

The number of employed recreation leaders continued to mount steadily and a total of 22,920, or 2,158 more than the previous year, were reported. There was also a marked increase in the number of volunteers. For the first time the salaries and wages paid recreation leaders was recorded, and the amount reported by 657 cities is $7,059,865.69. Gratifying progress was also made in the number of employed leaders receiving the benefit of training courses.

Special attention is called to the total recreation expenditures of $33,539,805.79, an amount which exceeds that of any previous year. The increase in 1929 is due, not to large expenditures for land, buildings and permanent equipment, but to the greater amount expended for salaries and wages. Bond issues for recreation totaling $4,501,127.26 were reported in 37 cities and 46 cities received gifts of playgrounds during the year.

An analysis of the forms of recreation administration in the cities and counties reporting reveals that recreation programs or facilities were managed in almost exactly the same number of cities by park authorities as by recreation boards, commissions or departments. On the other hand only 41 park boards as compared with 119 recreation commissions employed one or more recreation leaders on a full time year round basis. To an increasing degree, local play and recreation service is being provided by municipal rather than private groups.

It is especially gratifying to note that not only does the Year Book for 1929 contain reports from a much larger number of cities than any heretofore published, but much more complete data concerning the facilities and programs was secured. This is reflected particularly in the tables concerning recreation facilities, league activities and special recreation activities. If the local recreation service has advanced in quality to the extent that it has progressed in other respects, the year 1929 marks a significant forward advance for the entire community recreation movement.

## Employed Workers

Of the 945 cities represented in the 1929 Year Book, 806 cities report 22,920 workers employed to give leadership for community recreation activities. Of this total 10,623 were men and 12,297 were

†These exceptions are Omaha, Nebraska, Kansas City, Kansas, and Gary, Indiana

*Reports from the following were received too late for publication: Jerome, Arizona; Ontario, California; Canton, Illinois; Grinnell, Iowa; Albany, Georgia; Grand Haven, Michigan; Portland, Oregon (Board of Education); McKeesport and Pottsville, Pennsylvania (P.T.A.); Pulaski, Tennessee.

women. Of this number 2,640 men and women were employed full time throughout the year for recreation service.

The marked increase in employed recreation leadership during the last five years is indicated by the following comparison of the 1929 figures with those for the year 1924:

| | *1924* | *1929* |
|---|---|---|
| Cities reporting employed recreation workers | 711 | 806 |
| Men workers employed | 6,577 | 10,623 |
| Women workers employed | 9,294 | 12,297 |
| Total workers | 15,871 | 22,920 |
| Cities reporting workers employed full time the year round | ..... | 258 |
| Men workers employed full time the year round (244 cities) | ..... | 1,352 |
| Women " " " " " " " (183 " ) | ..... | 1,288 |
| Total full time year round workers (258 cities) | ..... | 2,640 |

## Volunteers

In 209 cities the help of 7,411 volunteers was enlisted in carrying out the community recreation program in 1929. Of this number, 3,699 are men and 3,712 are women. The number of leaders serving without pay was considerably greater than in 1928 and is a marked increase over the number reported five years ago, which was 4,444.

## Play Areas Under Leadership

A total of 13,397 separate play areas under leadership is reported. Of this number, 1,137 are reported open in 1929 for the first time. There is a decided increase in the number of play areas and special recreation facilities reported for 1929 as compared with previous years; for example only 9,051 separate areas were reported five years ago. A summary of the information submitted concerning them follows:

### Outdoor Playgrounds

| | | |
|---|---|---|
| Total number of outdoor playgrounds (763 cities) | | 7,284 |
| Open year round (169 cities) | 1,237 | |
| Open during the summer months only (675 cities) | 4,855 | |
| Open during school year only (64 cities) | 586 | |
| Open during other seasons only (69 cities) | 606 | |
| Total yearly or seasonal attendance of participants (5,061 playgrounds) | | 126,614,246 |
| Total yearly or seasonal attendance of spectators (2,193 playgrounds) | | 22,401,602 |
| Total number of outdoor playgrounds open in 1929 for the first time (206 cities) | | 648 |

*In addition* to the above, outdoor playgrounds for colored people were reported as follows:

| | | |
|---|---|---|
| Total number of playgrounds for colored people (136 cities) | | 397 |
| Open year round (42 cities) | 98 | |
| Open summer months only (109 cities) | 246 | |
| Open school year only (10 cities) | 23 | |
| Open other seasons only (11 cities) | 30 | |
| Total yearly or seasonal attendance of participants (269 playgrounds) | | 9,428,877 |
| Total yearly or seasonal attendance of spectators (95 playgrounds) | | 847,601 |
| Total number of playgrounds for colored people open in 1929 for the first time (28 cities) | | 46 |
| Total number of playgrounds for white and colored people (763 cities) | | 7,681 |
| Total attendance of participants at playgrounds for white and colored people (5,330 playgrounds in 565 cities) | | 136,043,123 |
| Total attendance of spectators at playgrounds for white and colored people (2,288 playgrounds in 298 cities) | | 23,249,203 |

### Indoor Recreation Centers

| | | |
|---|---|---|
| Total number of indoor recreation centers (248 cities) | | 2,255 |

| | | |

| Total number of indoor recreation centers open in 1929 for the first time (56 cities) | | 163 |
| *Additional* indoor recreation centers for colored citizens are reported as follows: | | |
| Total number of indoor recreation centers for colored citizens (41 cities) | | 86 |
| Open year round (17 cities) | 19 | |
| Open school year (23 cities) | 56 | |
| Open other seasons (6 cities) | 11 | |
| Total yearly or seasonal attendance of participants (44 centers in 20 cities) | | 620,743 |
| Total number of indoor recreation centers for colored citizens open in 1929 for the first time (9 cities) | | 13 |
| Total number of indoor recreation centers for white and colored people (255 cities) | | 2,341 |
| Total 1929 attendance of participants at indoor recreation centers for white and colored people (1,115 centers in 128 cities) | | 8,416,309 |

**Recreation Facilities**

The importance of facilities in the recreation program is brought out clearly in the following table. Although the number of participants is not reported in the majority of cases, the figures that are available indicate the intensive use that is made of these facilities. It is of interest that according to the data submitted the average cost of operation is less than the income received from bathing beaches, golf courses and outdoor swimming pools. The figures in parenthesis indicate the number of cities reporting in each case and the figures in brackets the number of facilities reported.

| *Facilities* | *Number* | *Participants per season* | *Average Length of season in months* | *Total cost of operation* | *Total income* | *Number open in 1929 for first time* |

### Recreation Buildings

Recreation buildings are reported as follows:

| | | |
|---|---|---|
| Total number of recreation buildings (207 cities) | | 628 |
| Open year round (161 cities) | 436 | |
| Open school year (30 cities) | 69 | |
| Open other seasons (47 cities) | 123 | |
| Total yearly or seasonal attendance of participants (101 cities) | | 14,143,764 |
| Total number of recreation buildings open in 1929 for the first time (36 cities) | | 93 |

*In addition,* recreation buildings for colored citizens are reported as follows:

| | | |
|---|---|---|
| Total number of recreation buildings for colored citizens (30 cities) | | 38 |
| Open year round (22 cities) | 25 | |
| Open school year (8 cities) | 11 | |
| Open other seasons (2 cities) | 2 | |
| Total yearly or seasonal attendance of participants (13 cities) | | 281,339 |
| Total number of recreation buildings for colored citizens open in 1929 for the first time (7 cities) | | 7 |
| Total number of recreation buildings for white and colored people (214 cities) | | 678 |
| Total yearly or seasonal participants at recreation buildings for white and colored people (313 buildings) | | 14,425,103 |

### Play Streets

Thirty-six cities report a total of 165 streets closed for play under leadership. Twenty-five of these streets are reported to be lighted for evening use. Although 45 play streets are reported open in 1929 for the first time, the total number of streets closed for play is less than the previous year. The attendance at 105 of these streets is reported to be 720,118.

### Other Play Areas

A total of 3,343 other play areas and facilities which do not come under the foregoing classifications are reported by 297 cities. The seasonal or yearly attendance at these areas reported by 115 cities is 28,626,847. Winter sports facilities and areas are reported by 195 cities.

## Management

The following tables indicate the number of cities in which recreation was conducted in 1929 by various public and private groups. Since in many cities two or more agencies submitted separate reports, each of these cities has been recorded two or more times in the tables.

### Municipal

The forms of municipal administration in the cities reporting are summarized as follows:

| *Managing Authority* | *No. of Cities* |
|---|---|
| Park Commissions, Boards and Departments | 205 |
| Playground and Recreation Commissions, Boards and Departments | 204 |
| Boards of Education and other School Authorities | 119 |
| Mayors, City Councils, City Managers and Borough Authorities | 44 |
| Park and Recreation Commissions, Boards and Departments | 34 |
| *Municipal Playground Committees, Associations and Advisory Commissions | 33 |
| Departments of Public Works | 16 |
| Departments of Parks and Public Property or Buildings | 13 |
| Departments of Public Welfare | 11 |
| *Chambers of Commerce | 5 |
| Public Utilities Commissions | 4 |
| Departments of Public Safety | 2 |
| Other Departments | 10 |

*These authorities administered recreation facilities and programs financed by municipal funds although in some of the cities it is probable that they were not municipally appointed.

In a number of cities municipal departments combined in the management of recreation facilities and programs as follows:

| | |
|---|---|
| Boards of Education and City Councils | 12 |
| Boards of Education and Park Boards | 7 |
| Recreation Commissions and School Boards | 3 |
| Park and Recreation Commissions and School Boards | 2 |
| Recreation Commission and Golf Commission | 1 |
| School Board and Department of Public Welfare | 1 |
| School Board, Park Board and Water Commission | 1 |
| School Board and Improvement Commission | 1 |

In a number of cities municipal and private authorities combined in the management of recreation activities and facilities as follows:

| | |
|---|---|
| City Councils and private groups | 7 |
| Boards of Education and private groups | 5 |
| Park Departments and private groups | 5 |
| Boards of Education and Community Service | 2 |
| Recreation Departments and private groups | 2 |
| Board of Education, City and Recreation Association | 1 |

### Private

Private organizations maintaining playgrounds, recreation centers or community recreation activities are reported as follows:

| *Managing Authority* | *No. of Cities* |
|---|---|
| Playground and Recreation Associations, Committees, Councils and Leagues, Community Service Boards, Committees and Associations | 88 |
| Community House Organizations, Community and Social Center Boards and Memorial Building Associations | 25 |
| Women's Clubs | 16 |
| Parent-Teacher Associations | 16 |
| Civic and Community Leagues, Neighborhood and Improvement Associations | 15 |
| Welfare Federations and Associations, Social Service Leagues, Settlements and Child Welfare Organizations | 15 |
| Y. M. C. A's | 13 |
| Industrial Plants | 11 |
| Chambers of Commerce and Commercial Clubs | 6 |
| Athletic Associations, Outing Clubs, Winter Sports Clubs | 6 |
| Kiwanis Clubs | 6 |
| American Legion | 5 |
| Lions Clubs | 5 |
| Churches | 4 |
| Community Clubs | 4 |
| Rotary Clubs | 3 |
| Men's Clubs | 2 |
| Park Associations | 2 |
| Miscellaneous | 17 |

### Agencies Reporting Full Time Year Round Workers

The following table contains a summary of the forms of administration of the municipal and private agencies reporting one or more workers employed on a full time year round basis in 1929. Several of the private agencies reporting such workers control few facilities and serve primarily to supplement the work of one or more municipal agencies in the same cities. In several cities two or more agencies report year round workers giving full time to recreation.

**Municipal**

## Finances

**Expenditures**

The total expenditure for public recreation as reported for 890 cities is $33,539,805.79. This is the largest amount ever reported as having been expended for public recreation within a single year and represents an increase of more than 67% during a five year period. It is of special significance in view of the fact that the capital expenditures were less than the previous year, the total increase being due to greater expenditures for operation. This year, for the first time, the total amounts paid in salaries and wages to recreation leaders are segregated from those paid to laborers, caretakers and other employed workers. (The figures in italics indicate the number of cities reporting in each case.)

| *Expended for* | *1924* | *1929* |
|---|---|---|
| Land, Buildings, Permanent Equipment | $8,885,587.85 (258) | $9,891,726.52 (342) |
| Upkeep, Supplies and Incidentals | 3,276,947.37 (478) | 4,699,528.31 (624) |
| Salaries and Wages | | |
| For Leadership | | 7,059,865.39 (657) |
| For Other Services | | 5,001,552.51 (365) |
| Total | 5,453,627.17 (557) | 14,398,342.79 (728) |
| Total Expenditures | 20,052,558.02 (662) | 33,539,805.79 (890) |

**Sources of Support**

The sources of support for community recreation activities and facilities in 929 cities are summarized in the following table. In 215 of these cities receipts from the operation of recreation facilities or from membership or other fees are used in financing the recreation service. A marked increase in municipal and county support is noted during the five year period since 1924.

An analysis of the sources of support with respect to the amounts received from various sources indicates that nearly 84% of the total expenditures, the source of which was reported, came from municipal and county funds. Of the balance, more than 12% was secured through fees and charges, and only 4% came from private sources. The amount secured from fees and charges shows an increase as compared to the previous year, with a corresponding decrease in the percentage from municipal sources.

Of the $26,814,716.82 reported spent from municipal sources in 742 cities in 1929, $4,490,705.46, or nearly 17% came from school funds in 152 cities. This is a very marked increase over the year 1928. A total of $3,301,849.21 is reported spent from bond funds in 29 cities. The amounts reported spent from various sources are:

| | *Amount* | *No. of Cities* |
|---|---|---|
| Municipal and County Funds | $26,814,716.82 | 742 |
| Fees and Charges | 3,862,162.76 | 215 |

| Total | 8,620 | 67,494 | 1,230,003 | 690,972 | 38,364,745 |

## Special Recreation Activities

More cities reported on their special activities than in 1928. Among the activities in which the greatest increase is noted are Art Activities, Athletics for Industrial Groups, Handcraft, Holiday Celebrations, Water Sports and Winter Sports. A statement concerning several music activities appears at the end of the following table.

| *Activities* | *Cities Reporting* | *Activities* | *Cities Reporting* |
|---|---|---|---|
| Art Activities | 232 | Social Dancing | 186 |
| Athletics for Industrial Groups | 290 | Water Sports | 371 |

## Music and Drama

In order to secure additional information concerning the use of music and drama in community recreation programs, several questions concerning these activities were asked this year for the first time. Although it was stated on the Year Book blank that the data submitted "should be limited to activities and groups organized, conducted or promoted by the organization or department submitting the report" and that no activities conducted as a part of the school curriculum should be included, it is believed that these instructions were not always observed in filling out this part of the blank. It is believed that data relating to school music and drama curricular activities and to many community groups other than those reporting were included on many reports. The following statement indicates, however, that music and drama are receiving increasing recognition as important factors in the community recreation program.

The figures in parenthesis indicate the number of cities reporting in each case.

*List of Plays for Junior High School Age.* $ .10

*The Road to Oregon*—a pageant in honor of the pioneers. $ .25

## Rural and Small Community Recreation

The usefulness of this book is by no means confined to rural districts as a glance at a few of the chapters will show: *Home Play; School Play; Picnics; Social Recreation; Contests and Old Time Games; Community Drama; Community Music; Money Raising Stunts; Community Recreation Meeting Places.*

**Price, $ .75**

## Conduct of Community Centers

No less valuable to the recreation worker than the *Conduct of Playgrounds,* is *Conduct of Community Centers,* with its suggestions for the community center program and its administration, and the adaptation of school buildings for community center use.

**Price, $ .25**

## Play Areas—Their Design and Equipment

The information which *Play Areas* offers on the layout and equipment of play areas of all kinds, together with the illustrations, plans and diagrams it contains, makes this book invaluable.

**Price, $2.50**

## Home Play Apparatus

One of the most experienced recreation executives in the country has prepared these detailed plans for a sand box, three board seesaw, three swing set, horizontal bar, horizontal ladder, balance beam, volley ball post, basketball goal, jump standard, and baseball backstop.

**Price, $ .25**

## County Parks

This study of county parks by the P.R.A.A. is unique in its field. The findings are recorded from the point of view of legislation, finances, organization, administration, human uses of parks and economic and social effects. Many illustrations add interest.

**Price, $2.00**

## Sand Modeling Manual

This series of sand modeling projects in ten lessons will prove fascinating to children. There are also suggestions for conducting sand modeling contests.

**Price, $ .20**

## Public Recreation Facilities—an Analysis of Construction and Operation Costs

A study of certain types of recreation properties and facilities made by the P.R.A.A. appears in the August, 1929, *Playground and Recreation.* Information has been incorporated on swimming pools, bath houses, beaches, wading pools, tennis courts, field houses, playground shelters, athletic fields, baseball backstops and winter sports facilities.

**Price, $ .50**

## The Correspondence Course for Summer Playground Leaders

Now that the correspondence course has been in operation for a year, the National Recreation School of the P.R.A.A. which is conducting this experiment in training, is able to announce that the plan has met with gratifying success.

The course consists of ten lessons embodying the best experience of the country in the administration of playgrounds, in program planning and in conducting activities of all kinds. The course is accompanied by eight of the handbooks and pamphlets of the P.R.A.A. Those successfully completing the course are awarded certificates.

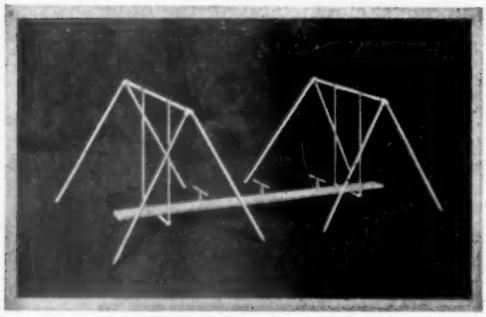
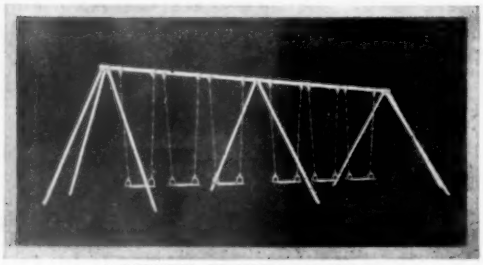
LOUDEN COMBINATION OUTFIT



LOUDEN SWING BOB



LOUDEN SENIOR SWINGS

NO OTHER single thing, perhaps, wields so healthful an influence in all phases of child life as well equipped playgrounds, where every activity develops physical strength, mental alertness, sunny temperaments, social equality and a sense of unselfish fairness—priceless qualities in their value to the child and the community.

In planning new playgrounds, or additional equipment for old ones, you will find it worth while to know the Louden line, not alone because of its sturdy and safe construction, but because of its wide range of devices and prices. It affords a selection suitable for a great metropolitan playground system or a little "vacant lot" installation. It is the most complete of all playground lines.

Beach and pool equipment, too, if you need it—the most fascinating of all water devices.

# "DA-LITE" ILLUMINATION

practically doubles the play-period on playgrounds, swimming pools, etc. No necessity of telling Recreational Directors that many, adults especially, will participate in games at night who could not do so during the day.

**Better Light at Less Cost**

There are degrees of light. The "DA-LITE" Projector approaches nearer 100% efficiency than any other. A saving of from 50 to 75% in current consumption has been effected by them when replacing other types; and the original cost much less.

Let us tell you about its patented and exclusive features—adjustability and ventilation, not to be had on any other projector.

An installation of "DA-LITES" last Summer made possible horse-racing at night.

# Westchester County Holds Circus

Westchester County, New York, has had its drama tournaments, its music festivals and its mammoth play days in which communities from all parts of the county have taken part, but not until last summer had the Recreation Commission planned a community circus. And what a circus it was! Buses rolled into Woodlands Park bearing hundreds of children from a dozen communities. Crossing the big campus in every imaginable color, the units all proceeded to the circus ring outlined by a wall of red, white and blue bunting. The ring reached, each performer found the name of his home town printed on a white pennant, dividing the immediate outside space into sections, each of which became a rallying place for directors and their units.

The program began with an overture by the fifty musicians from the Children's Village, Dobbs Ferry. Then came the grand march of about 800 playground children just outside the red, white and blue circle of the ring, each city or community parading in its own unit. Mrs. Giraffe was there wearing the latest thing in beach coats. Little short of her in arrogance were two ostriches. Elephants and fiery steeds as well as gentle ponies and chattering monkeys were liberally sprinkled among the boys and girls who for the time became comedians, dancers, acrobats, brownies, midgets, clowns and all the other circus performers. Around the ring the procession went and across the campus to appear again while the band played and the audience applauded.

The big show was on!

# Archery in Lansing, Michigan

Archery was added to the recreation activities of Lansing during the past summer, when a permanent range was established at one of the parks, a state tournament held and local tournaments conducted for juniors and seniors. Against a low hill some distance from the play apparatus and game areas, butts consisting of bales of straw have been set up. Three of these were permanent though twelve were used during the tournaments. Targets are put up every afternoon; the playground directors give general oversight to the activities. Informal tournaments were held each Saturday afternoon, and early in October a local tournament was held one week for seniors and one week for juniors. There were 15 entries for the seniors and the high score was 264. Forty-eight boys entered the junior tournament for gold, silver and bronze medals, though postponment on account of bad weather prevented that many from actually taking part. 274 was the highest score here. Regular American rounds were shot, being for seniors 30 arrows each at 40, 50 and 60 yards and for Juniors 30 arrows each at 30, 40 and 50 yards. The most interesting event was a state tournament with 26 men and 8 women entered. In addition to the regular York Round Matches an Archery Golf game of nine holes was played and won by the Archers. Indoor practice will be held in a school gymnasium during the winter.

# Municipal Music in Irvington

Since the organization in June, 1927, of the Municipal Recreation Department of Irvington, New Jersey, musical activities have attracted a large number of those who have taken part in the program and have brought out audiences numbering thousands. Among the musical activities inaugurated by the Department in the two and a half years of its history are the civic symphony orchestra, a community chorus, a boys' band, a girls' glee club and ukulele and harmonica clubs and classes. In addition, the Music Service Department has also promoted community singing, Music Week observances and similar activities.

The orchestra personnel is composed of forty-five business and professional men and women and seven students in the high school orchestras. The orchestra gave three concerts during the past season and has made provision for five local concerts this season, two out-of-town engagements and one radio broadcast.

The boys' band organized during the past summer was uniformed by the Kiwanis Club. The forty-five boys belonging range in age from ten to seventeen years. The band gave five of the fourteen concerts provided during the past summer under the Department's auspices and played at a number of special occasions.

The chorus is composed of 250 men and women, most of whom are enlisted in the Department's Christmas Carolers' organization. Plans are under way to keep the chorus intact during the summer months for outdoor appearances. The majority of the indoor concerts are given in the Morell High School auditorium, seating 1,400 people, which is made available without charge as a part of the community center work fostered by the Recreation Department. Each concert is sponsored by a local organization such as the Elks, American Legion and Kiwanis club. This sponsorship includes aid in ushering, decorating the auditorium, distributing programs and similar service.

Less than $2,000 was expended during the past twelve months for the entire music program. These expenditures included the purchase of instruments, lighting and current expenses. In the spring the seven musical organizations will participate in a festival of music.

# A FEW REASONS—WHY

## Thousands of Playgrounds are using the

First: The sport is fascinating—easy to INTRODUCE—and LOW IN COST.

Second: The Aero-Devil develops GRACE, RHYTHM, and MOTOR-COORDINATION.

Third: It benefits those, who do not enter more STRENUOUS activities.

Fourth: It is NEW to this generation—but is not a "one-season" novelty.

Fifth: Only LITTLE AREA is required for the Aero-Devil.

Sixth: An excellent activity for TOURNAMENTS, or for EXHIBITION PURPOSES.

Seventh: Made especially SUBSTANTIAL—for Playground use.

Eighth: Its SUCCESS was proven, last year, on MANY PLAYGROUNDS.

Ninth: Many children will purchase their OWN outfits.

Tenth: The manufacturer of the AERO-DEVIL is interested in the SUCCESS of the PLAYGROUNDS, and will cooperate—in every way possible—in fitting the sport to the needs of your program.

# Horseshoe Pitching in Gardner

The Park and Playground Department of Gardner, Massachusetts, held a very successful horseshoe tournament last summer on the playgrounds of the city. Games were conducted every Monday evening during the month of August with a championship game the last Monday evening of the month. In organizing the activity letters were sent to all the societies and factories in the city and before the season opened thirty-one teams had been entered. Each organization was permitted to enter a team of four men, only two of whom took part in one evening, the others serving as substitutes. Mayor Stone donated the first prize, a silver loving cup known as the "Mayor Stone Cup," and the Gardner News, Inc., presented a silver cup for second prize. At the end of the season a notice was sent by the Park Department to each of the organizations taking part announcing the results of the tournament. The communication ended with this statement:

"The members of the Gardner Park Commission and the Playground Director wish to express their sincere appreciation to the members of the horseshoe teams for the wonderful spirit and sportsmanship exhibited during the tournament. It has been a pleasure to work with such a wonderful group of good sports."

# Athletics for Girls in Oklahoma

The Oklahoma State League of High School Girls' Athletic Associations came into existence as the result of the work of seven women with Miss Flora May Ellis of the A. and M. College as chairman. In preparing for the organization of the League the state was divided into sixteen districts and a leader was appointed in each to arrange for the formation of local athletic associations. It has been the objective of the committee to develop a program which would encourage the participation of girls in more types of activities and to substitute for the inter-school competitive program intra-mural activities which would be popular. The point system adopted by the League will, it is hoped, fill a real need.

# Do You Know—*

—that over 4,000 children, ninety percent of them in costume, took active part in the Public School Playground Festival at the Stadium Saturday afternoon?

—that a crowd estimated at 18,000 watched their demonstration of the many things they have learned on the school playgrounds during the summer?

—that by general consensus of opinion, the pageant, the costumed part of the Festival, was pronounced the cleverest and best executed playground presentation ever seen in this city?

—that the attendance on the sixty-six school playgrounds during the summer season just concluded, as compared with the attendance of the previous year, showed an increase of over fifteen percent?

—that an average of nearly 25,000 children between the ages of six and sixteen attended the school playgrounds every day during the eleven-week season?

—that thirty-five articles, stories and pictures describing the school playgrounds and various school playground activities appeared in the four local papers during the summer?

—that eighteen school playground radio programs were broadcast from WEW, KWK and KMOX in July and August?

—that the local school playground system is one of the few in the United States illuminated with flood lights, permitting many of the playgrounds in the congested districts to remain open twelve hours daily, from nine a. m. to nine p. m.

—that three of the school playgrounds were equipped with wading pools this season, thus providing splendid recreation for additional thousands of children?

—that the attendance on these three school playgrounds nearly doubled after the installation of the wading pools, the increase being forty per cent, fifty-six percent and sixty-eight percent, respectively.

**Undaunted.**—Last summer a silver medal for all-around proficiency was awarded by the Union County, New Jersey, Park Commission to twelve-year-old Robert Spicer. A cripple since birth, with a lame leg which would confine many boys to the side lines for life, Bobby, through sheer persistency won the required 200 points which none of the other boys were able to reach. Despite his handicap the boy won first place in the quoits contest, both doubles and singles; he was third in horseshoe, marbles, foul shooting and jack-knife. He is one of the best players on the playground baseball team. One of his notable achievements in the line of athletics was his passing of the efficiency tests which boys one hundred percent fit have failed to pass. The biggest barrier, which at first seemed insurmountable, was the fifty-yard dash, which must be run in eight seconds. Numberless times Bobby tried, only to fail. With customary perseverance he kept on trying and finally his efforts were rewarded. The other requirements were no mean achievements for a lame boy, but Bobby passed them all, chinning the bar four times and making a broad jump of five feet, nine inches.

# Hiking in Minneapolis

With a paid membership of 200 people engaged in hiking the year round, the Municipal Hiking Club promoted by the Minneapolis Board of Park Commissioners is well on its way toward obtaining the goal of "health and happiness," which it has set. In this group, whose ages range from fifteen to seventy, are clerks, bookkeepers, stenographers, secretaries, printers, teachers, salesmen, cashiers, students, bankers, mechanics, engineers and people from every profession.

During the season of 1928, according to Mrs. Alice Dietz, Assistant Director of Recreation, the club had eighty-eight scheduled hikes and 4,187 hikers walked 663 miles. The average attendance on each hike was about forty-five, the figure sometimes being as low as twenty and again as high as 120. During the year the club enjoyed 198 other events, social as well as athletic, including swimming, canoe trips, skating parties, sleigh rides, boat excursions, diamond ball games, banquets, dances and theatre parties. Once a month the organization is called together for a meeting to discuss problems and programs. During the year there were sixty-four meetings including monthly business meetings and minor committee meetings. The attendance from January 1, 1927, to January 1, 1928, including the luncheons, held every Tuesday noon, totaled 7,838.

The Hiking Club was organized in 1920 and since that date hundreds of strangers in the city have found in it a means of getting acquainted not only with the city and its environs, but with congenial people. All anyone needs do is to put on his most comfortable clothes, then call up the Recreation Department and ask where the hikers start from. His welcome by the club is assured.

A monthly magazine, *The Minnehiker*, is sent each member to inform him where he is to hike every Wednesday, Saturday and Sunday during the month. The schedule planned often takes the hikers to villages and small towns some distance from the city. Buses are sometimes engaged to take the crowd to the starting point, at which the hike begins. The average length of an afternoon hike is six miles, but there are all-day hikes in which the hikers start early in the morning, take their lunch with them and walk until sundown, the length being approximately twenty miles. Bad weather is never an obstacle and in the cold, snowy weather the hikes seem to be enjoyed most.

A jolly group, these hikers, as they travel along merrily singing some old familiar tune!

# Trenton's Quoit Leagues

In 1922 quoits were introduced into Trenton's recreation program by Commissioner George W. Page of the Department of Parks, who realized the need for some form of recreation which would appeal to men. As a result the Steel Quoit League of eight clubs came into existence with a schedule calling for games beginning early in May and concluding about the middle of September. The activity proved a success from the outset and each succeeding season has seen a new eight-club league organized until last year the Department had enrolled forty-eight clubs.

The League is divided into two classes. Classes "A" and "D" each have a roster of eight teams while classes "B" and "C" carry sixteen teams each divided into sections—northern and southern. The schedule is divided into halves, the winner of each half playing for the city championship in its respective league. At the close of the schedule the two leading clubs in each league are advanced to a higher organization while the two losing clubs join the lower leagues.

Immediately following the league wind-up, a doubles and singles tourney is conducted for a trophy emblematic of the City Championship. Last year there was an entry list of 495 men for the singles and 182 teams in the doubles. These tournaments are always well attended. At the final game of the singles last year, more than 3,000 spectators were present.

The past season produced the keenest competition the leagues have ever had. The average attendance daily was about 2,000. Forty-eight playing grounds were used, and men from all walks of life participated. Numerous teams other than the league clubs have been practicing nightly in an effort to meet the requirements in applying for membership in the organization next year.

# Book Reviews

BEN AND HIS WHISTLE. By Myra King. Published by Wetzel Publishing Company, Los Angeles, California. Price, 15c.

Recreation workers and teachers who are trying through storytelling to impart facts of interest from the lives of great men will find this account of the accomplishments of Benjamin Franklin very effective.

BRIGHT BITS FOR BANQUETS. By J. Hal Connor. Published by Eldridge Entertainment House, Inc., Franklin, Ohio. Price, 50c.

Suggestions for planning a banquet, toasts, jokes, stunts and other features for programs, and simple menus are presented in this booklet.

BIRD HOUSES BOYS CAN BUILD. By Albert F. Siepert. Published by the Manual Arts Press, Peoria, Illinois. Price, 65c.

This attractive book with its pictures and diagrams has information not only on the construction of bird houses, but on their placing and on bird house exhibitions. It also contains suggestions for feeding shelves and shelters and bird baths. Many illutrations and diagrams add to the interest of the book.

LEATHERWORK. By Adelaide Mickel. Published by Manual Arts Press, Peoria, Illinois. Price, 85c.

Leatherwork is an excellent craft for beginners. It is very easily handled, requires but little equipment and the necessary tools are inexpensive and few in number. Many useful and beautiful articles can be made from leather and the work is therefore well worth while. The book contains directions for making a number of articles and there are many illustrations.

ART METAL WORK WITH INEXPENSIVE MATERIAL. By Arthur Payne. Published by the Manual Arts Press, Peoria, Illinois. Price, $3.25.

Art metal work makes an appeal because of the simple and inexpensive character of the equipment required. The problems presented in this book adhere to the time-tested principles of the arts and crafts movement which provide that elements of design be considered in the following order: (1) The object must be suited to its use; (2) the construction must be honest and sound, and (3) the decoration must be adapted to the materials, tools and processes.

AMERICANIZATION THROUGH HOMEMAKING. By Pearl Idelia Ellis. Published by the Wetzel Publishing Company, Inc., Los Angeles, California.

Intended for the use of teachers and workers dealing with foreign born girls in general, the book is based more specifically on the needs of Mexican girls. Sewing, the preparation of food, budgeting, home nursing and home decorating are a few of the subjects discussed.

CITIZENSHIP GAMES AND DEVICES. By Myra King. Published by the Gem Publishing Company, Los Angeles, California. Price, $1.25.

The author, who has had long experience in teaching, has prepared these suggestions as an aid in helping teachers to hold the attention and interest of children in their citizenship training.

OLD SONGS HYMNAL. Collected by Dorothy G. Bolton, music arranged by Harry T. Burleigh. Published by the Century Company, New York. Price, $1.50.

These delightful songs, with words and melodies from the state of Georgia, represent a compilation of the best spirituals available. The music as arranged by Mr. Burleigh has been made as simple as possible in the hope that this precious collection of old songs will be widely used in church, home and school.

MODERN ATHLETICS. By G. M. Butler. Published by Macmillan Company, New York. Price, $4.00.

Among the distinctive features about Mr. Butler's presentation of track and field athletics are the illustrations, excerpts from slow motion films in which some of the outstanding athletes of Great Britain are shown in action. The book, with its discussion of working and training for general fitness and the technique of running in track and field events, is addressed primarily to athletes who are still in school. It is written informally in a conversational style which adds to its interest.

TRIANGLES AND CYMBALS, FOLK TUNES AND CLASSIC PIECES FOR CHILDREN'S RHYTHM BAND. By Virginia Peakes Churchill. Published by Oliver Ditson Company, New York. Price, 75¢.

In this book an effort has been made to use many of the songs with which the children are familiar and which in a short time they will be playing themselves. The latter part of the book contains some more difficult compositions by well known composers. All of the pieces have been chosen because of their rich rhythmic effect and their appeal to the imagination through tone and words. Twenty-nine compositions have been arranged for toy orchestras consisting of triangles, cymbals, tambourines, drums, castanets and bells. With the growing interest in rhythmic bands for children this book should have special value.

WHAT PLAYTHINGS SHALL MY CHILDREN HAVE? Published by Carson Pirie Scott and Company, Chicago, Illinois.

Carson, Pirie and Scott, a Chicago department store, has issued an attractive catalogue in which have been listed toys appropriate for children of various ages. An interesting feature of the catalogue is the listing for children from six to fifteen years of age, of the most popular kinds of toys arranged in the order of the children's choices.

CHILDREN'S PERCUSSION BANDS. By Louie E. de Rusette. E. P. Dutton & Co., Inc., New York. $1.35.

Literature on the organization of children's bands is growing rapidly. In *Children's Percussion Bands* recreation workers will have a handbook of instruction in the organization of bands of drums, bells, triangles, tambourines and cymbals which enables children to play the best in classical music. The material is presented in an unusually interesting way.

FOLK SONGS OF THE FOUR SEASONS. Text and Translations by Susanna Myers. Harmonization by Harvey Officer. G. Schirmer, Inc., New York. $1.75.

The distinctive feature of this book lies in its correlation of folk songs with folk lore in a practical, illuminative way for children and teachers. The songs have been chosen from the folk literature of many lands but in every case they are related to some particular festival in which interesting customs are involved. The tunes have been set in medium range and in a form simple enough to be readily played. The material is largely new as sixteen of the thirty-three songs have never before been translated. Ten others are retranslated from the original sources.

FOOTLIGHTS ACROSS AMERICA. By Kenneth Macgowan. Harcourt, Brace & Company, New York. $3.85.

A survey of the new theatre in America is the theme of Kenneth Macgowan's book which tells how far this country has progressed toward achieving the new national theatre arising outside the commercial show business. The pioneer work of Professor Baker in Harvard, schools of playwriting, acting, scenery design and production, the growth of native folk drama, the little country theatre for the farmers, the playhouse and organization methods of principle little theatres in America, and the extraordinary development of dramatics in high schools are all evaluated and given their place in the progress toward a new era in drama.
